

NEW SCREEN OPTIONS

Atrium offers three new screen options. Your screen need could be for greater clarity with an almost invisible appearance or you have windows that demand extra strength and durability. Or maybe you need a patio door screen that can resist the tears and damage caused by pets. We now have new screen solutions for you.

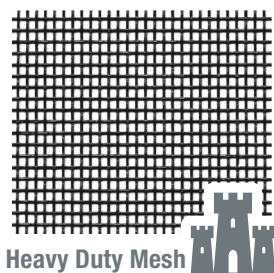

FOR REPLACEMENT DOUBLE HUNG AND CASEMENT WINDOW FAMILIES:

Clear View Screen's thinner fiberglass yarn allow you to be able to see through it more clearly, with a less obstructed view. This fiberglass screen is manufactured using an enhanced tighter weave and finer mesh woven from smaller refined yarns as compared to standard fiberglass screening.

- + 20% thinner yarn than the industry standard provides a screen that offers clear, increased visibility as well as greater light transmission and better airflow
- + Smaller opening than the industry standard provides better protection from insects and small particles
- + The thinner yarn combined with a tighter weave provide the illusion of a virtually invisible screen
- + Charcoal fiberglass mesh is dent-resistant and flame retardant for increased protection
- + Comes with a full lifetime warranty against defects in the mesh.

Heavy Duty Screen's heavy weight weave is 40% stronger than standard fiberglass mesh providing greater protection and offering excellent outward visibility. Heavy Duty Screen is made from fiberglass yarn and was specifically engineered to perform well in large openings.

- + Heavy weight weave is 40% stronger than standard fiberglass mesh providing greater protection and offering excellent outward visibility
- + Perfect for large windows, doors and other high usage areas that need extra protection against active pets / young children
- + Our strongest fiberglass screen to date
- + 50% stronger than standard screen after 1000 hours of weather exposure
- + Comes with a full lifetime warranty against defects in the mesh

FOR SLIDING PATIO DOORS:

- Pet Resistant Screen** is designed to resist damage caused by household pets, Pet Resistant Screen is more durable than traditional fiberglass screen thanks to its thick, tear-resistant polyester yarn. It can be used in any patio door and is a smart solution for those who repeatedly have to replace screens.
- + Ultra-strong screen for strength, durability and safety
 - + Flexible polyester yarn resists tears and damage from household pets
 - + Ideal for areas where pets or children push against the screening
 - + Durable, yet still allows for excellent outward visibility and airflow

* Screens are not meant to restrain a child from falling through an open window.
